EDUCATION

Sri Eshwar College of Engineering	B.E(ECE)	CGPA:7.8	2023-2027
SMBM Mat. Hr. Sec School	HSC	80%	2022-2023
SMBM Mat. Hr. Sec School	SSLC	PASS	2020-2021

INTERNSHIPS

Full Stack Web Development [*Better Tomorrow*] 2025

Full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js). I designed efficient MongoDB schemas, implemented RESTful APIs for seamless CRUD operations using React.js and modern CSS frameworks. This experience enhanced my skills in full-stack development, API integration, and scalable application.

Flutter with dart Intern 2025

Built a Pet Care app using Flutter with a clean and interactive user interface. The app integrates Firebase Authentication for secure user login and registration, and utilizes Firebase Firestore for real-time data storage. It also includes health tracking features to help users monitor and manage their pets' well-being efficiently.

PROJECTS

Coastal Safety App 2024

Developed a MERN-based web application to assess real-time beach suitability for coastal tourism in India using oceanic and weather data. The app visualizes safety levels through geospatial maps and color-coded indicators, providing location-based alerts to help tourists and authorities make safer beach activity decisions.2024

Tractor Invoice Processing using GenAI 2025

Developed a GenAI-powered solution to automatically extract and validate key fields (Tractor Model, Horsepower, Quotation Amount) from unstructured tractor dealer quotations, including handwritten and multilingual formats. The system reduces manual data entry, improves accuracy, and accelerates tractor-loan underwriting by converting inconsistent documents into clean, structured data.

Local job finder application 2025

Built a full-stack job discovery platform connecting users with nearby skilled workers (electricians, plumbers, mechanics, etc.). The app enables worker registration, location-based browsing, category filtering, and direct contact between users and workers, providing a fast and practical alternative to traditional job portals.

CERTIFICATIONS

Java fundamentals	2024
Certificate for chat gpt marketing	2023
Mastering Data structure	2024
Certificate for fullstack development	2025
Python (Basic)	2025

ACHIEVEMENT

Skillrack-Solved Problem-250+

Leetcode-solved 900+problems

Paper Published -IOT Based Smart Irrigation System for optimizing Water usage.Real -Time Disaster Alert and Resource Coordination Platform using Mern with Web Sockets. (on process)

Finalist – Smart India Hackathon 2024 (Top 30 out of 250+ teams)

Secured 3rd Place – Technotronz'24, PSG College of Technology

TECHNICAL SKILLS

Languages	C C++ HTML CSS Dart
Core	Data Structures and Algorithms DBMS
Framework	React.js Node.js Flutter
ML / CV Libraries	NumPy Pandas
Query Language	MySQL MongoDB Firebase
Tools	VScode Canva Git Postman AWS Blender Google collab
