

EDUCATION

BE(EEE)-Sri Eshwar College of Engineering	CGPA 8.1(through 5th sem)	2023-2027
HSC-Shenbagam Matriculation Higher Secondary School	86%	2022-2023
SSLC- Shenbagam Matriculation Higher Secondary School	78.5%	2020-2021

INTERNSHIPS

iNeudata Consultancy & Services-Data Engineering | [certificate](#)

Performed data cleaning and processing using SQL and MongoDB, built data visualizations with Python, and worked with big data tools including PySpark, Hadoop, Kafka, and Airflow in a Linux environment to support scalable data pipelines.

RV Tech Learn-MERN | [certificate](#)

Worked on developing full-stack applications using MongoDB, Express, React, and Node.js, implementing REST APIs and JWT-based authentication to ensure secure user access. Contributed to backend integration, database operations, and overall application performance improvements.

PROJECTS

Mern SecureAuth Platform- Built a secure authentication system with the help of MongoDB, Express.js, React.js, and Node.js. Introduced authentication based on JWT, password hashing using bcrypt, email validation and password reset process. Established secured routes and role-based authorizations to enhance secure user management.

Predictive Credit Risk Analysis using Machine Learning- Developed an end-to-end machine learning model for predictive credit risk analysis and loan default detection using large-scale financial data. Performed data preprocessing, EDA, and feature engineering, and implemented an XGBoost. Evaluated model performance using Precision, Recall, F1-score, and ROC-AUC for reliable risk assessment.

CustomerPulse Shopping Behavior Analytics Dashboard- Built an end-to-end data analytics portfolio using real-world datasets, performing data cleaning, transformation, visualization, and exploratory analysis, which analyzes the main purchase trends, preferences, and sales trends based on real-life data. Provided practical insights that facilitated improved business knowledge and decision-making based on data.

SKILLS

Languages: C | Python | Java (Intermediate)

Core Concepts: Gen-Ai | OS | Computer Networks | Data Structures & Algorithms | OOP | Excel

Frontend Technologies & Frameworks: React.js | HTML5 | CSS3 | JavaScript | Tailwind CSS

Backend Technologies & Frameworks: Node.js | Express.js | Spring Boot (Beginner)

Databases: MySQL | pgAdmin4 | PostgreSQL | MongoDB

Data Engineering / Big Data Tools: PySpark | Hadoop | Apache Kafka | Airflow

Data Science & Analysis Libraries - Pandas | Numpy | Matplotlib | Seaborn

Tools & Platforms: Git | GitHub | VS Code | PowerPoint | Linux | Postman | Jupyter Notebook | Power BI

CERTIFICATIONS

- Microsoft Power BI for Business Intelligence - [Udemy](#)
- Python for Data Science - [Great learning](#)
- Mastering Data Structures and Algorithms using C and C++ - [Udemy](#)
- SQL (Intermediate) - [HackerRank](#)
- Java Programming beginner to master - [Udemy](#)
- Excel for Beginners - [Great Learning](#)
- Introduction to Internet of Things (IoT) - [NPTEL](#)
- Cloud Computing & Distributed Systems - [NPTEL](#)

ACHIEVEMENTS

Leetcode : 100+ problems

Paper Published : "RFID-Powered Smart Cart" at ICINVENTS 2025 (IEEE technically co-sponsored international conference).

1st Prize - Inter-College Ideathon (Texperia 2025) among 25 colleges.

2nd Prize - Mini Project Expo 2025, among 15 teams.

2nd Prize - Inter-College Mini Project Expo (Ideatronic 2025) among 30 teams.
